

Mourits Parallax-free Exophthalmometer MW-9500

This new standardized exophthalmometer according to Professor Mourits, is introduced and marketed by Medical Workshop. The most eye-catching innovation is its parallax-free prismatic system. Both prisms can be slid individually, providing quick and accurate measuring.

Features

- Parallax-free system.
- Durable, lightweight design.
- Accurate prismatic optics.
- Patient friendly with smooth edges.
- Easy to use.
